

This diagram illustrates the exploded view of a door hinge assembly. It features two vertical rectangular plates, one light gray and one dark gray, each with four circular holes. Four screws are shown: two are positioned to be inserted into the top and bottom holes of the light gray plate, and the other two are positioned for the top and bottom holes of the dark gray plate. Two coiled springs are also shown, each with a hook at one end and a loop at the other, intended to connect the two plates.
